Re: Altisource Project

Dear Charles:

I wanted to personally thank Costello Electric for the job well done with the Altisource Project located on the second floor of Northpark 400. Your dedication to the project was an integral part of the successful outcome of this project. This was a difficult project with extreme time constraints. Costello stepped up to the plate and met all of our needs in order to get the job done.

Costello Electric's service to Altisource was excellent and their contribution to the construction team commendable. I highly recommend Costello Electric Company and welcome their contribution to future construction projects with Kinzey Construction Company.

Sincerely,

Stephen Yoder
Senior Project Manager
