Re: Recommendation for Costello Electric

Dear Roy Ferguson:

I am pleased to write a letter of recommendation for Costello Electric. I highly recommend Costello as a Service Provider.

I have worked with Costello for 4 years now. I became acquainted with Costello through a previous working relationship with another employer. Throughout the time that I've worked with Costello, I have witnessed above standard performance and am certain that the skills and abilities that their technicians embody will allow them to excel at any endeavor.

We utilize Costello Electric for the majority of our electrical needs, from replacing bad ballast in light fixtures to installing additional outlets be it 20,30, or 50 amp outlets. Costello's work is very thorough and complete and their knowledge is impeccable.

In short, I recommend Costello Electric enthusiastically and without reservation. I believe Costello, as a service provider, would bring a high level of expertise to your organization. If you have any further questions with regard to Costello's work performance, please do not hesitate to contact me.

Sincerely,

Timmie Reed
